- High Schools
- Universities
- Boarding Schools
- Community Colleges
- Training Centers
- Foundations
- Colleges

Tecta has put an emphasis on educational institutions and will solve any roofing issue while understanding the routine in the learning environment.

- Students and employees are safe during class hours and their classrooms are safe after hours
- Work schedules are designed to minimize conflicts with school procedures
- The integrity of complex building systems and confidential information are safeguarded at all times
- We understand that Schools need to manage operations and expenses judiciously
- Tecta has the experience and the expertise to install or repair any roof without affecting students, staff, or undue disruption of daily routine

## Comprehensive Care for your Education Facility

Tecta America offers a wide range of service programs that help educational institutions better manage their roof assets.

- **Tecta Repair™** - 24/7 Emergency Leak response Tecta repairs leaks before they compromise patient care, damage expensive equipment, or create an unsafe environment for employees and patients.
- **Tecta Care™** - Scheduled planned maintenance includes inspection, cleaning, repairs and reports assessing your roof's condition. Regular visits will help protect against unexpected major problems, patient care interruptions, and extend the life of your roof.
- **Tecta Plan™** - Our proprietary roof asset management system, Tecta Tracker®, consolidates information regarding your entire portfolio of roofs in one place. The online tools help you optimize roof maintenance and capital budgets.
- **Tecta Response™** - Tecta guarantees immediate, priority response after severe storms. No calls required. We'll proactively inspect enrolled properties to stabilize the roof, make emergency repairs and help keep your facility up and running.
